

To Whom it May Concern,

It was just brought to my attention that you may take KLove 104.3 off the air in Cincinnati. I would very disappointed in that decision. I believe that this station offers a great alternative to the other types of radio. It is of benefit as they have alot to offer their listners-ie spiritual guidance, counselors for those who need it. Those people might never know about it if that station is not allowed to remain. What a disservice it would be to take off clean spirit filled radio and just replace it with the same garbage that already exists on other channels. I ask that you please consider carefully pulling this channel off the radio.

Thank you!

Nancy Roberts
